CAREER OBJECTIVE

Innovative Frontend Developer with hands-on experience building high-performance, multi-tenant web applications using Next.js 14, TypeScript, and Headless CMS. Proven ability to architect scalable design systems, integrate RESTful APIs, and automate content workflows. Expert in component-driven, responsive, and accessible UI development with a strong focus on SEO-driven frontend architecture and delivering production-grade web experiences.

FRONTEND SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: Next.js 14 (App Router), React.js, Node.js, Tailwind CSS, Framer Motion, Radix UI

CMS & Tools: Sanity CMS (GROQ), Git/GitHub, Vercel, VS Code, Jupyter Notebook

Specializations: Multi-Tenant SaaS, Headless CMS, Component-Driven Development, Responsive Design, Accessibility (a11y), SEO / JSON-LD / Structured Data, GA4, GTM, OpenAI API Integration

Programming Languages & Tools: Python, C, MySQL, typescript, figma, Pandas, NumPy, Scikit-learn, Matplotlib

EXPERIENCE

Ginger Media Group – Marketing Tech Intern *Dec 2024 – Feb 2025*

Project: Constellation – Enterprise Multi-Tenant Headless Platform *Bengaluru, Karnataka*

Tech Stack: Next.js 14, TypeScript, Tailwind CSS, Sanity CMS, Radix UI, Framer Motion, OpenAI API

(https://bestbusbranding.com/ , https://bmtcbusadvertising.com/ , https://bmtcbusbranding.com/, https://busbrandingksrtc.com/ , https://chennaiairportadvertising.com/ , https://delhiairportadvertising.com/ and so on …)

- **Multi-Domain Architecture:** Developed a centralized theme registry and domain-resolution engine supporting 15+ commercial domains (Advertising, Logistics, Retail) from a single Next.js codebase, reducing time-to-launch for new brand sites by 80%.
- **Headless CMS Integration:** Architected complex GROQ queries and Sanity CMS content schemas to deliver dynamic, tenant-specific content ensuring full data isolation across all client sites.
- **SEO & Analytics Engineering:** Implemented dynamic JSON-LD structured data, automated OpenGraph tags, and per-tenant GA4/GTM injection, achieving 100/100 Lighthouse SEO scores across all deployments.
- **Accessible Component Library:** Built a responsive, accessible UI library using Radix UI and Framer Motion ensuring UI/UX consistency and a11y compliance across 15+ industry-specific themes.
- **AI Content Pipeline:** Integrated OpenAI API to build an automated blog generation pipeline, streamlining SEO content strategy for mass-scale multi-tenant site deployments.

PROJECTS

1. Personal Portfolio Website *Individual*

Tech: HTML, Tailwind CSS, JavaScript(https://github.com/yashaswini1303/portfolio-project)

- Designed and deployed a fully responsive, single-page portfolio with mobile-first design across 3+ breakpoints, achieving sub-1.5s load time.
- Showcases projects, skills, blogs, and contact form with smooth scroll animations and cross-browser compatibility.

2. Multi-Tenant Commercial Websites (Constellation Platform) *Ginger Media Group*

Tech: Next.js 14, TypeScript, Tailwind CSS, Sanity CMS – Live Deployments

– gogig.in – Gig economy platform with advanced component architecture and REST API integration.

(https://bestbusbranding.com/ , https://bmtcbusadvertising.com/ , https://bmtcbusbranding.com/, https://busbrandingksrtc.com/ , https://chennaiairportadvertising.com/ , https://delhiairportadvertising.com/ and so on …)

3. Online Pharmacy Store *Team of 2*

Tech: HTML, CSS, JavaScript, MySQL

- Built a full-stack web platform with prescription upload, consultation booking, and home delivery, serving 50+ simulated users with authentication and database management.

4. Car Selling Analysis *Individual*

Tech: Python, SQL, Pandas, Matplotlib

- Analyzed 10,000+ automotive records to identify key pricing factors; delivered actionable insights for inventory optimization and market trend forecasting.

5. Blood Group Prediction via Fingerprints *Team of 4 | Ongoing*

Tech: Flask, Python, Machine Learning, OpenCV

– Developing an ML web app to predict blood groups from fingerprint images with real-time visualization to support healthcare diagnostics.

EDUCATION

Shridevi Institute of Engineering and Technology *2022 – 2026*
*B.E. – Computer Science and Engineering | CGPA: 8.6 * (ongoing)* *Tumkur, Karnataka*

Vidhyanidhi Pre-University College *2020 – 2022*
PUC – PCMCS | 74% *Tumkur, Karnataka*

St. Mary's School *2020*
SSLC – State Board | 88% *Tumkur, Karnataka*

CERTIFICATIONS & TRAINING

– Claude 101, Claude Code in Action (Anthropic)
– Web Development Internship – 1 month (Outix)
– Full Stack Java Development (Shri Tech Innovations)
– Skill Conclave: IDEATHON, DevOps, Web Development, Python for Data Science, Ethical Hacking, IoT (Shri Tech Innovations)
– Introduction to Python | Basics of Python (Infosys Springboard)
– Artificial Intelligence (Skill Intern)
(https://drive.google.com/drive/folders/1E2MpwnS918QWMuKtJBd2gEgBn8W-bdDC?usp=sharing)

ACHIEVEMENTS

– State Level Award (2016): Recognized at state level in Maths Chinthana Examination.
– Academic Excellence: Consistently ranked in the Top 5% of class throughout B.E.
– The project Blood group prediction using fingerprints is being Recognised and funded under the 49th Series of Student Projects Programme (2025–26), Government Sponsored; grant awarded: ₹3,500.

SOFT SKILLS & EXTRACURRICULAR ACTIVITIES

– Teamwork & Leadership – Developed through active participation in team sports and collaborative projects.
– Organization & Coordination – Strengthened through event planning and management activities.
– Cultural Awareness & Adaptability – Gained through learning new languages and cross-functional team collaboration.
